☐ Restrict project naming

全局属性

☐ Environment variables

☐ Prepare jobs environment

☐ Tool Locations

## Job Config History

| Use different history directory than default: | |
|---|---|
| Max number of history entries to keep | |
| Max number of days to keep history entries | |
| Max number of history entries to show per page | |
| System configuration exclude file pattern | queue\|nodeMonitors\|UpdateCenter\|global-build-stats |
| Do not save duplicate history | ☑ |
| Save Maven module configuration changes | ☐ |

Show build badges
- ◯ Never
- ◉ Always
- ◯ Only for users with configuration permission
- ◯ Only for administrators

## Maven Configuration

| Default settings provider | Use default maven settings ▾ |
|---|---|
| Default global settings provider | Use default maven global settings ▾ |

## SSH remote hosts

| SSH sites | 增加 |
|---|---|

SSH sites that projects will want to connect

## JDK

JDK 安装

新增 **JDK**
